W3.CSS Colors

< Previous

Next >

Red	Pink
Purple	Deep Purple
Indigo	Blue
Light Blue	Cyan
Aqua	Teal
Green	Light Green
Lime	Sand
Khaki	Yellow

Amber	Orange
Deep Orange	Blue Gray
Brown	Light Gray
Gray	Dark Gray
Pale Red	Pale Yellow
Pale Green	Pale-Blue

The default color scheme used in W3.CSS is inspired by Material Design Colors (colors used in marketing, road signs, and sticky notes).

Coloring HTML Elements

The **w3-color** and **w3-text-color** classes can be used to color any HTML element:

Containers:

London is the most populous city in the United Kingdom, with a metropolitan area of over 9 million inhabitants.

London is the most populous city in the United Kingdom, with a metropolitan area of over 9 million inhabitants.

Buttons:

Text:

Red Purple Blue Green Orange

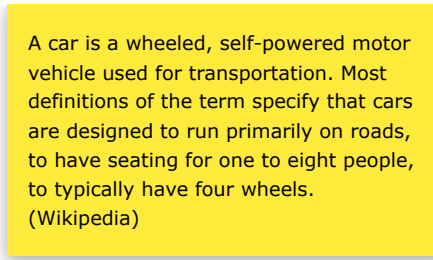

Borders:

Tables:

Name	Points
Jill Smith	50
Eve Jackson	94
Adam Johnson	67

Cards:

A car is a wheeled, self-powered motor vehicle used for transportation. Most definitions of the term specify that cars are designed to run primarily on roads, to have seating for one to eight people, to typically have four wheels.
(Wikipedia)

Background Colors

The **w3-color** classes set the background color for any HTML element:

London

London is the most populous city in the United Kingdom, with a metropolitan area of over 9 million inhabitants.

London

London is the most populous city in the United Kingdom, with a metropolitan area of over 9 million inhabitants.

London

London is the most populous city in the United Kingdom, with a metropolitan area of over 9 million inhabitants.

Example

```
<div class="w3-red">
  <h2>London</h2>
  <p>London is the most populous city in the United Kingdom,
  with a metropolitan area of over 9 million inhabitants.</p>
</div>

<div class="w3-yellow">
  <h2>London</h2>
  <p>London is the most populous city in the United Kingdom,
  with a metropolitan area of over 9 million inhabitants.</p>
</div>

<div class="w3-gray">
  <h2>London</h2>
  <p>London is the most populous city in the United Kingdom,
  with a metropolitan area of over 9 million inhabitants.</p>
</div>
```

Try It Yourself »

The colors **gray** and **grey** are interchangeable in all W3.CSS classes.

Text Colors

The **w3-text-color** classes set the text color of any HTML element:

London

London is the most populous city in the United Kingdom, with a metropolitan area of over 9 million inhabitants.

London

London is the most populous city in the United Kingdom, with a metropolitan area of over 9 million inhabitants.

Example

```
<div class="w3-text-red">
  <h2>London</h2>
  <p>London is the most populous city in the United Kingdom,
  with a metropolitan area of over 9 million inhabitants.</p>
</div>
```

Try It Yourself »

Hover Colors

The **w3-hover-color** classes define the background hover color for any HTML element:

London

London is the most populous city in the United Kingdom, with a metropolitan area of over 9 million inhabitants.

Example

```
<div class="w3-container w3-orange w3-hover-red">
  <h2>London</h2>
  <p>London is the most populous city in the United Kingdom, with a
  metropolitan area of over 9 million inhabitants.</p>
</div>
```

Try It Yourself »

The **w3-hover-text-color** classes define the text hover color for any HTML element:

London

London is the most populous city in the United Kingdom, with a metropolitan area of over 9 million inhabitants.

Example

```
<div class="w3-container w3-orange w3-hover-text-white">
  <h2>London</h2>
  <p>London is the most populous city in the United Kingdom, with a metropolitan area of over 9 million inhabitants.</p>
</div>
```

Color libraries

In addition to standard W3.CSS colors, W3.CSS can also use colors from a lot of different color libraries:

Windows Colors:
